RE:

Compliance Inspection Letter

McGlothlin Poultry-SOPC00080

Macon County, TN

Dear Mr. McGlothlin:

On June 7, 2012, Division of Water Pollution Control (WPC) personnel from the Cookeville Environmental Field Office conducted a Compliance Evaluation Inspection of your Concentrated Animal Feeding Operation (CAFO) located at 2555 Wixtown Road in Macon County.

The State Operating Permit, SOPC00080, was on site along with records for litter removal. It was also noted during the inspection that the aprons to the litter sheds and poultry houses were clear of spilled litter.

Recordkeeping

During the inspection, a recent litter analysis, mortality records and a copy of the Nutrient Management Plan (NMP) was not located at the facility. Copies of these items should be maintained on site.

Required Actions

A written response should be submitted to the Cookeville Environmental Field Office by July 31, 2012. This response must include descriptions of the methods used to remedy the above-mentioned issues and a time frame for completion of the remediation activities. If a recent litter analysis and a NMP has been located, please include a copy of each with your response.

Mr. Russel McGlothlin McGlothlin Poultry July 9, 2012 Page 2

Please take time to read and familiarize yourself with the entire updated General SOP for CAFOs located at http://www.tn.gov/environment/wpc/pdf/sopc00000pmt.pdf.

If you have any questions or comments, you may contact me at (931) 432-4015 or by electronic mail at Greta.Hurst@tn.gov.

Respectfully,

Greta Hurst

Environmental Specialist
